This document contains templates to print our fun Thanksgiving-themed conversation starters onto paper silverware bags, for use as place settings at your Thanksgiving dinner.

This template is sized to fit our 3" x 7.5" paper cutlery bags. For more information about where to purchase our exclusive bags, and for complete assembly instructions with step-by-step photos, please visit our website at: <http://chicaandjo.com/thanksgiving-dinner-conversation-starters>

To print these designs onto the bags:

1. Print the BASE page onto regular paper.
2. Put your BASE page back into the printer, making sure the edge with the feed arrows gets pulled into the rollers first.
3. Print one of the "right side up" question pages onto the BASE page as a test.
  - If your design prints correctly on the bag outline, continue to use the "right side up" question pages.
  - If your design prints upside down, switch to the "upside down" question pages and repeat steps 1-3.
  - If the design isn't centered in the bag outline, draw a new outline.
4. Tape two bags to the BASE page where indicated by the outline.
5. Print a question page onto the BASE, then carefully remove tape from bags.
6. Repeat steps 4-5 for the remaining question pages.
